I confirmed from e-mails that first request was yesterday @ 10:26 am (confirmed by PPS). With all of the duties it wasn't gotten to as of this AM. So this morning in the shift change we saw it was still a pending request and immediately put it to the top and its been in progress since then.

Max Picard, our lead on site is working on this and will speak to Commander Prud'homme. ETA is unknown at this point, but since we have to bring in fences, it won't be in the next hour...

Commander Prud'homme told me this request was originally made 2 days ago...any idea what happened?

Hi Jeff,

As requested several time; any update on the request would be appreciated. I'm advised that this is a security concern and must be done ASAP in priority.

Could I can a timeline when the request will be actioned and completed please. As you know I've also spoken to the DG and I understand your team are working on it which is appreciated.

Thanks
